Digital Consultants, a certified SBA 8(a) small, disadvantaged business, provides a range of IT services designed for business and governmental productivity. With our superior processes and proven past performance, we deliver value to our clients and partners. Digital Consultants has an ISO 9001:2015 certified Quality Management System and is approved by DCAA for cost-plus contracts.

Our Services

IT Engineering and Services: We maintain hardware, software, and systems engineered and deployed to support a large organization's voice, visual, and data telecommunications requirements.

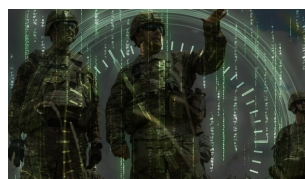

Cybersecurity Services: We provide end-to-end advisory, protection and continuous monitoring services to secure an organization.

AV/VTC Services: From small conference rooms to major command centers, we design and build custom AV/VTC solutions across multiple security domains for our clients.

Wireless Communications: We provide our customers with reliable, resilient, scalable, and cost-effective wireless communications systems, including LMR, microwave, and laser.

Training: We provide subject matter expertise in all aspects of C4ISR (command, control, communications, computers, intelligence, and reconnaissance) training.

Our Project References

U.S. Army Intelligence and Security Command (INSCOM): As Prime contractor with 12 FTEs, Digital Consultants is providing Cybersecurity and Network Technology services to sustain the Assured Compliance Assessment Solution, the Network Monitoring and Configuration Management solution, and the supporting virtual infrastructure for these technologies on Army JWICS and the INSCOM Military Intelligence Domains.

Army North Headquarters: As Prime contractor with 30 FTEs, Digital Consultants provides an ITIL® - aligned Tier 1, 2, and 3 IT Service Desk operation, as well as cybersecurity support, for command and control of forces in day-to-day, training, and contingency operations. We support 900 users with over 3,000 end points operating on the NIPRNet and SIPRNet.

U.S. Army Training and Doctrine Command (TRADOC) Headquarters: As Prime contractor with 18 FTEs, we provide conference room operations and maintenance support for over 120 customized VTC/IPTV/AV engineered systems installed at U.S. Army TRADOC and Army Futures Command located in Fort Eustis, VA, and the Pentagon. Our customers include the 4-star Commanding General and the 3-Star Deputy Commanding General and over 100 VIPs plus the remaining Headquarters staff.

U.S. Department of the Interior (DOI): As Prime contractor with 8 FTEs, we provide Unified Messaging, Enterprise Collaboration and Email services for the DOI Chief Information Officer and DOI's 70,000 employees. This includes architecting, designing, implementing, supporting, deploying, and providing governance oversight for an enterprise collaboration solution based on Microsoft SharePoint Online, Windows SharePoint Services, Dataverse, MS Power Platform, and Microsoft SQL server.

Naval Criminal Investigative Service (NCIS): DigiCon supports NCIS IT projects, technologies, infrastructure, core enterprise services, systems and applications, and customer services. We provide Tier 1, 2, and 3 support in the forms of desktop, system, and network administration, to more than 2,300 end users with special deployments in 15 major global regions.
